Messrs. PROCTER & GAMBLE,

Gentlemen:—Medical men are much interested in discovering the various sources of disease as whether from foul air, impure water, infected food, and possibly soap made of fat from diseased cattle.

Hence, I subjected various samples of your "IVORY" Soap to a rigid microscopical examination. I find it to be free from any forms of animalcular or vegetable germ life.

I therefore cordially commend it for its unsurpassed detergent properties and purity.

Yours respectfully,

R. OGDEN DOREMUS, M.D., LL.D.
